BACKYARD

B I N G O

Watch the clouds change forms

Collect some snow, bring it inside and watch it change from a solid to a liquid.

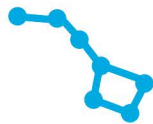

Feel the wind on your face

Make shadow puppets in the sunshine

Feel the sunshine on your skin

Find a nest in a tree

Find a constellation when it gets dark

Find a tree with new leaves

Spot the moon before the sun goes down

Plant your feet on the ground & take 10 deep breaths that connect you to nature

Trace leaves on paper with a crayon

Find an interestingly shaped rock

Look for animal tracks in the snow or mud

Search for a bird in flight. Notice how it move its wings

Find a pine cone

Try to hop like a jackrabbit

Follow a bug's journey for 30 seconds

Find something green! What did you find?

Take a picture of a wildflower

Spot Canadian Geese in their migratory formation – The Flying V!

Listen for at 2 different types of bird calls

Close your eyes. Pay attention to any scents on the breeze.

Draw a picture of a tree in your yard or neighborhood

Lie on your back & look up at a tree and the sky.

Spot a puddle or melting snow

How many can you get?!
